## Agile Delivery Manager

### Description

#### Responsibilities

Delivery managers:

- lead on agile and lean practices
- Use a variety of agile and lean tools and techniques in order to help the team keep a delivery and learning cadence that helps to remain focused on delivering value against the product vision
- build and maintain motivated teams, making sure there is an iterative plan to work towards
- protect the team and make sure the team collaborates, communicates and focuses on what is most important
- coach team members and others, facilitate continuous improvement and apply the most appropriate agile and lean tools and techniques for their environment
- proactively manage dependencies, overcome obstacles and get the best value against constraints
- manage risks, budgets and people
- Challenge and improve organisational processes

#### Qualifications

Candidates will be considered against the DDaT framework for Delivery Manager and candidates should ensure that they align their applications to show how each area is covered -
